

The metaphysical law of God=Love + Light=God. By Thomas Eidsaa.

27.01.2019

Egypt: The start of the Source, Love and Light Religion.

Now, let`s take you back to the beginning. Back to Egypt: The cradle of love and light.

The first major step towards the Abrahamic religions of today happened 4000 years ago with an Egyptian prince named Moses. While civilizations, religions, and ethnicities come and go; the people of Israel endured.

From ancient times: Only Israel survived! Can you believe it??? And who owns, and rules the world today? Jews. All ancient cultures have died out. And saddest of all; even the sun-cult of which they originated has died out! While Satanism has hundreds of temples; there is not ONE Church of the sun, temple of the sun, or sun religion left in the world. I checked. And Satan worship was BANNED throughout all Egyptian history!

Of all civilizations, and mythologies in the world; the Egyptians were the greatest as rich archeological finds tell us. Yet aside from archeology: Knowledge of Egypt is completely lost! All we have is nothing!

It is thought that ancient Egypt were led by a priest-elite, and that they were the most spiritual of all ancient cultures. It goes without question they must have been very knowledgeable, and scientific about the spiritual, as *they were more concerned with the afterlife than any other culture in history to this day*. They even mummified their dead with spells painted inside the coffin; depicting how to survive the passage to the local netherworld! Who was the greatest Egyptian hero of all times? Jesus the messiah who saved us from death. Remember: From Egypt came Judaism, and from Judaism came the messiah and Christianity. It is all part of an ancient mystery cult that was originally a sun-cult, and Jesus was it`s last headmaster; leading Judaism back to the sun. For Christianity is in essence: A sun-cult in disguise, and you don`t have to look further than to roman emperor Constantine`s sun-cross, and the resulting history.

The Egyptians built history`s greatest architectural monuments. *They built pyramids, and pylons/obelisks to harness the source-field...*

They had technology that baffle scientists today like f.i the ability to create gold-paper 1/1000 mm thick! They cut limestone-blocks with saws. They built pyramids. *But this great civilization of the antique vanished completely, and nothing remains of their religion!* It was not until the 1800th century we could

read hieroglyphs through the Rosetta Stone, and it took over 50 years of deciphering. We had NO knowledge!

Throughout the Roman empire, and until the colonization-era; Egypt was SACKED for its iconic obelisks and relics. Over 8 obelisks weighing several hundred tons each were transported to Rome as you see with the one dedicated to Ra in St. Peter's square. (Another clue the Christians are sun-worshippers.)

The Egyptians build these to harness the source-field.

Thieves robbed the pharaonic graves in the Valley of the Kings.

French, and English colonists later sacked Egypt, and dug out its graves during the colonization era. You will find thousands of Egyptian artifacts in the museum of London. *Why did the elite want Egyptian artifacts? What were the Egyptians onto?*

The Egyptians were the only religion in history where the sun-god/gods was their prime deities.

Although some would disagree, and say the Greek-roman culture highly valued the sun; and do so still to this day in the guise of roman Catholicism. The Greek Helios, Apollo, and Phosphorus/Lucifer are examples of this. Especially popular in Italy to this day, is the cult of the Persian sun-god Mithras who was introduced at the same time as Jesus, and often intermixed with Christianity. Roman-catholic worship of the sun continues today among the masonic lodges. The lodges in Scandinavia have also recently adopted exaltations Germanic gods like the sun-gods Sol, Balder, and the druidic Hu, an Osiris archetype.

Christianity is traditionally seen as a sun-cult while Judaism, and Islam are considered moon-saturn cults. These are the two ancient religions of the hermetic tradition of Atlantis, and I am here to keep this balance in a time of RAGNAROK. There once was an alleged order of giants in Egypt called the Jedi. They kept the secret of the Source-Field, and transformed their bodies into the rainbow body like Jesus, and the monks of Tibet do to this day. We must bring back civilization to the world!

The father of the Gods was worshipped as Amon Ra/Atum Re during the high-culture of Egypt. The creation-stories varies from the different Egyptian cities, as all had their prime deity, but he is generally considered Atum Re as he was worshipped in Heliopolis; the city of the sun. He fathered the universe, and lesser Gods; many of which were associated with the sun, its phases and the planets. I have worked closely with him, and he is Lucifer; the great architect of the universe in masonry. Only a God can awaken his power. Lucifer only uses this name to those who know him deepest and personally.

What philosophy, and science backed their beliefs? We will discover: Science, Christianity, common sense, and philosophy tells the sun is the God of Earth! Upon studying the circle of life, nature, the sun, and the creative force of love; I

came up with a true, universal golden rule for all. The Aquarian law: Love and Light which is our simplest gospel, and catch-phraze. Rediscovering the past! Simple and enlightening...

Did the Egyptians live by my ideology, or am I the first to realize this? Was such beautiful arcane nature-philosophy lost in time???

I believe so..! It was lost to the public for *thousands of years*... And that is why I write this book. I believe we live in a New Age. This might be the best sun-philosophy since Egyptian times. And sadly: There are few sun-idolizers, or sun-philosophers alive today! Nor is there any sun-temple to Ra, or the sun-gods of ANY mythology aside from the Yezidis (who aren't really sun-worshippers)! While Set/Satan-worship was banned throughout all major Egyptian history, Satan or what was originally "night worship" of darkness; has many idolizers, philosophers, cults, and even huge churches like the Temple of Set, The Satanic Temple, and the Church of Satan in America.

The sun resembling his highest holiness has watched us waiting for this book to be written. And it is about time! I think the mummies have been weeping in their graves for long enough! (Reminds me of some dreams I had...)

The evolution started in Atlantis, continued to Egypt, and made it through Judaism aall the way up here to Norway through Christianity. When Jesus was introduced to the Vikings, he was clearly presented as a white, Luciferic-archetype sun-god. Historical sources unequividly state he was introduced as "Kvitekrist" meaning "Whitechrist."

We live in an age of Ragnarok for the western world; where the intellectual sun-cult, and humanism will crash with cave-man cult of orthodox Judaism, and sharia Islam.

I thus am a prophet of the time yet ahead...

So I believe science lies proof of a creator through love and light that even an atheist could believe in: The sun, and the magical love...

What is the starting point of religion if not the stars, and orbital sattelites; moon, sun, Jupiter and Venus; our most beloved, visible planets? The sun was worshipped as Ra, and Horus – the main Gods of Egypt. The moon, and Venus was worshipped most prominently as goddess Isis of magick.

The metaphysical law of God=Love + Light=God.

And here you have it. I will now begin describing the magnitude of the law.

The creation of life, and ethical code in this universe can be summarized in one paragraph to meditate upon.

You just read it. God=Love+Light=God.

This is the metaphysical arithmetic to the symbiosis of all.

This is the unified theory of principles in science, philosophy, religion, ethics and morale.

We will also discover that the Holy Spirit = Light and Love! Because Holiness is Light, and Love is the Ether/Spirit/Source-field. Which constitutes all space-time.

The symbiosis of all life can metaphysically be equated: God=Love + Light=God. God=life. The circle of life starts with 1.Sunlight, and continues with 2.Reproduction. Love and light. I tend to say; Light gives us form (f.i photosynthesis), and Love keeps us in form. Light makes life possible, while love keeps the circle of life going, but it could not have started if it was not for God`s representation as creator: The Divine Sun: The Creator from/in the Heavens. Light is God`s Holy Light visible as the sun/son, sometimes incarnate in the universe. Which created us/life. The Son/Sun of God. Who owns it? Nobody! It`s GOD`s sun/son! In sacredness of the trinity comes therefore: God first, then comes Light, and then comes Love.

Source is God, Light is Jesus the Sun. Love is the shekinah divine feminine Holy Spirit. (And the Sacred Trinity has been throughout all comparative religions, and history long before Christianity)

But there would not be much fun to life if it was not for love, and love/reproduction is undoubtedly the main purpose of all lifeforms created by the source-field, and thus the manuscript of life/creation/the source/the matrix/God. But love is only half the purpose. The circle of life started with sunlight, and produced mankind: The ultimate end of evolutionary process. But for mankind to become Gods again, and reach ascension, mankind must return to the Light/Source through transmutating the lower, red shekinah chakra, and utilize his libido to reach the crown chakra – just how a tree stretches towards the sunlight, and spreads flowers of love/reproduction through it`s symbolical death. So in Christ we die, and are born again, not by flesh, but by Holiness/Light and Spirit/Ether/Love. Being born again is becoming one with the Source through Jesus Christ. So greeting someone with Love and Light is in a Christian sense the same as greeting someone with the Holy Spirit! Because Holy=Light, and Spirit/Love.

God=love/spirit+light/holiness=man=spirit+holiness=God – becoming God/ascension through Christ.

We conclude that Source, Love, and Light is the most constructive universal concept, and the most pure. Source (God) , Love, and Light is the sacred trinity

creator (circle of life) nothing would exist without. They love each other; creating all life: Symbiosis. Ultimately creating mankind returning to holy light again.

1st lesson: The Law is the circle of life. God emanated the circle of life – all the universe - from love and light! These are the two divines. The two eternal.

Alternative TRUE physics (not Einstein`s) built on the Dr. Nicola Tesla, and Dr. Wilhelm Reich: PROVE that the Source (field) is God`s emanation – being all timespace, and all forces of physics: Everything atom, and all you have ever seen and been is part of ONE field, and it`s main script is love/reproduction. Reich called this universal force for Orgone after Organism and Orgasm, as it is sexual in nature, but transmutes to higher consciences as Dr Sigmund Freud proposed. Reich distinguished between Positive Orgone (POR) , and Dead Orgone (DOR) of which the latter is toxic. MY studies have proven Reich right that all energy is Source-Field sexual thought/energy. Either positive sexual energy (POR), or dead sexual energy (DOR). But hate is a child of love, and DOR can be created from f.i broken relationships, dead ambitions, and broken timelines. 2nd lesson: This multiverse is God`s FIELD or THOUGHT. The keepers of the Law should study this ILLEGAL science. Don`t believe what they teach you at school!

But these two (L&L) can metaphorically represent much more as we will discover. Scientists argue that the prime emotion of (God) the source-field is love/sex/life/reproduction. Love (and light) is therefore the law. Love symbolize our compassion/morale/heart, and light symbolize our intellect/will/brain. These are the two divine attributes of man that scientifically distinguish us from animals. We are made anatomically perfect. Billions of religious visions throughout all human history testify humanity is made in the image of the Infinite Creator, and we can thus hypothesize: Mankind`s Love/compassion + Light/intellect = God as we touched upon earlier. And it started vice versa. Think about it. Love and Enlightenment is what every person deeply seeks to be whole and ascend into Godhood. Just like ancient Christian, and Gnostic teaching of ascension taught us. We ascend via emotional liberation through deep love, through mental liberation through attaining perfect enlightenment, and spiritual liberation through attaining these as we no longer need the carnal. Spiritual liberation through returning to God`s Light again/source just like a tree stretches for the sun and dies. Our goal is to climb the tree of life, raise our conscience and chakras, and overcome death, and the trials of the testing-ground school of Earth to return to source, and become Gods/ascend. Understand? So mankind=God because of brain and heart. Just like Jesus told us: Ye are Gods.

3rd lesson: The Law of Love, and Light distinguish us from animals, and prove us Gods in the Creator`s image.

Also. Listen to this: Combine love and intellect/light, and you get morale! The divine script of civilization!

True science say we live inside a Source-Field matrix. What is it`s end-product aside from the obvious reproduction? It`s goal? We touched upon Light, and how training these two (L&L) are necessary for ascension. But in general I say that Source, Love, and Light synthesize into a universe of harmony, wisdom and balance with a strong emphasis on sex and survival. This is the mind of the creator. But mankind is the end-product of evolution, and just like reproduction is the endproduct of all life; mankind must therefore be the purpose of the Source-Field creation. And our purpose is As I said: God= Love and Light = Man, and Man = Love and Light = God. Returning to the Source (Heaven.) Mankind is afterall: The flower of all evolution.

4th lesson: The law is the foundation of all true religion, morale and ascension.

To think that the metaphysical law that creates morale, and true religion happens to be the law that creates the circle of life.

What a law. This is the law of the NWO that Bush senior envisioned in his 1991 speech. It is not the law of the jungle (do what thy wilt in Thelema). I like to call it the law of civilization and order because compassion+intellect=morale, and facilitates mankind`s orderly, balanced, and perfect nature in the image of The Creator. The LAW is a principle that structurizes, and unites all mankind, religions, tongues and ethnicities.

I believe God IS this law, and that the multiverse creation we call the universe expressed through the flower of life, and the platonc solids (google it) is the construct in which this law appears. God encoded us with this law; visible in the stars, ourselves, the microcosmos, and the macrocosmos; for those who can think in paraples, and metaphysical concepts: The visible sun who gives life to all life – stretching for the sun to reproduce. It is God`s son/sun, and the starry man Orion. Jesus the Sun of Heaven who came from the Mazzaroth/Nazareth. Our boddhisatva deva. When mankind realizes this law; golden-age civilization follows anywhere in the universe. The last time that happened was Atlantis.

5th lesson. The law IS all, the law IS God, and God is eternal.

I mentioned the philosophical formula/equation: God = (the circle of) Life = love + light. God = Love + Light = Man, and vice versa. Love/compassion + LightIntellect = morale.

And as a metaphor: Man (light) + Woman (love) = Creator. They become the creator in the moment of reproduction. God is a hermaphrodite as His name tells us: Y-hawah translates to God-Goddess/Eve. The great secret of the gnostics is that man, and women are polarized parts of the whole that need to come together to facilitate ascension... Even the hindus teach that orgasm=Unity with God whereupon they shout "I am Shiva!" Mystics believe the bliss of orgasm is the sensation of being God, and thus a mystical union with God.

Another metaphorical concept comes to view in how the ancients genderized all things like mounds (breasts) , valleys (vaginas) , and obelisks (phallus) etc. In this genderization: Water symbolizes the female womb, while fire (magma) symbolize the male semen and vitality. Thus you might say that light, and love is fire, and water which is the sex-act of our planet. Volcanoes spewing out lava that is broken down to dirt through rain, and produces fertile ground for all that we see.

The Law metaphysically applies to creation in nature through love being female, and man being light.

6th lesson. Sex is sacred. Love (woman) and man (light) = the blissful union with God.

What I want you to remember is that we are all part of a source-field that constitutes all the forces of physics. This source-field = positive sexual-energy as hypothesized by myself, Dr. Wilhelm Reich, and others. All life energy= positive sexual energy. Mankind has the ability to transmutate this energy through will, and intellect to reach higher states of conscienceness and unity with God. The dark side of the force is simply dead orgone DOR. It is deleted parts of the Matrix/Source-Field/Creator. This is Hell. It constitutes deleted timelines, and files in the netherworld, the Daath of the Sephiroth; ergo the Daath side of the force. This deleted energy becomes vampiric.

7th lesson: All Source energy= positive, or negative sexual organic energy. (POR and DOR) Positive Orgone and Dead Orgone as defined by Dr. Wilhelm Reich.

So now you have discovered the future, eternal principle that unites religion, science and philosophy.

I will emphasize a bit: Love is akin to the word law. Quite a coincidence, as love/sex is the purpose, and endproduct of all laws of the universe. Love is law, and means morale, respect, social kindness and care. In symbolism it can also mean water, the divine feminine, venus, and the moon etc.

Light means truth, enlightenment, holiness, spreading of knowledge, exchange of ideas, peace and order. In symbolism it can also mean fire, the divine masculine, the sun and Jupiter etc. The implications of synthesizing these archetypes to any

field of thought, or science is simply majestic, and proves intelligent design in itself.

So you see: I discovered something similar to the Fibonacci sequence.

Love is the law; a language all religions can agree upon; and all ethnicities can understand. It traverses all borders, and is the hope of the beating heart:

Common in everyone of us. Everlasting. Love is the hope of yesterday, today, and tomorrow. The divine quality inherent in all mankind.

Added to the law is honesty: You must follow your heart, as sin is sinning to your conscience. Gabriel told me that, and Gabriel, the messenger of the Gods; revealed this law to me.

Light makes flowers of love spread new seeds for a new sun next year. Just as the God's sun/son, and mercy is eternal, and new every morning and year.

I will end by saying EVERYTHING is cyclical in a mathematical fractal equation.

Summary:

God is spirit. God is comprised of the Holy Spirit which is separated into two. 1 Holiness (Light) is God. Source. 2 Spirit (Love) is the divine feminine. Creation. Akasha. Shekinah. Sophia. Mother Earth. Life. Etc. Together we have the 1 Holy 2 Spirit of 1 Light and 2 Love. The 2 spirit is also biblically symbolized by 7 fires burning before God's throne. These are the seven archangels, planets, or co-creators if you will. God is the ALL. The Spirit is not a Christian invention. The Indians believed in the "Great Spirit", the Greeks believed in the "Ether", etc etc.

Lesson number 1. Jesus, and God must never be separated. Lesson number 2. Holiness (Light) and Spirit (Love) must NEVER be separated. There are SO many Christians I know who carry a HUGE presence of Spirit/Love/Shekinah. Not to mention Jews, and Muslims as well. Spirit is for everyone. A Christian can be FILLED with Spirit. But that doesn't mean it is the HOLY spirit. This is VERY important.

The law of source, love & light.

Source (field) , Love, and light is the sacred trinity creator nothing would exist without. The scientific religion.

Source is God - all space-time etc. Light is Jesus the sun. Love is the HG. They love each other; creating all life.

In an equation. For the prime emotion of the source-field is love. Love and light symbolize our compassion/morale and intellect/will, and his distinguish us from animals - as Sons of God. Combine them, and you create morale.

Strange that the eternal moralistic law also happens to be the principle, and circle of life.

The unified theory of all: Source love and light.

We are all one through the superconscience matrix of the source-field!

Reloveution is for all.

The time has come for YOU to step up, and secure your children`s future! I highly recommend you band together in brotherhood, and build cells of survivalism with a knowledge-basis of source, love and light! Light of knowledge, and pride in your western-humanistic, civilized heritage. Knowledge that binds together the world of your future; forming friendships.

In the future we will look back at how we only accomplished our goals through source, love and light. Together these three make the *Eternal Law*.

The law of God: Source, Love, and light is my passion. So should it be for you. We all breathe the same air – part of the same superconscience source-field. The Ether.

So you see: I discovered something similar to the Fibonacci sequence.

Love is the law; a language all religions can agree upon; and all ethnicities can understand. It traverses all borders, and is the hope of the beating heart: Common in everyone of us. Everlasting. Love is the hope of yesterday, today, and tomorrow.
